Re: To Whom It May Concern

As the immediate supervisor, I am writing this recommendation on behalf of Mereb Technology PLC to testify and recommend Mr. Kidus Sentayehu Tesfaye, who has been working with us as an Intern Software Developer since November 05 2021.

Throughout his work stay with us we have observed that Mr. Kidus Sintayehu, has great analytical skills, very detail oriented and self-initiated, independent even in an unsupervised environment with good problem solving skills. He is always willing to go the extra mile, push his limits and expand his career path.

Mr. Kidus, also has great technical skills and he can produce quality output with short deadlines. He has wonderful communication skills which helped us with solving problems quickly. I have always put a premium on initiative and willingness to learn among my team members and Kidus never failed to deliver on both fronts.

As an intern, MR. Kidus is very reliable and resourceful. He is always on time and consistently produces quality work which was very important to the success of any projects he was assigned on.

Mr. Kidus brought a fresh and constructive approach to programming that enabled us to accomplish our goals as well as set us up for future projects. During his time in my team, he managed to conduct high-impact user research and make a number of key recommendations that resulted in an improved product.

I wholeheartedly recommend Mr. Kidus for any software development position. As he was always pleasant to work with and would do an excellent job. He would be an asset to any company interested in recruiting him.

Please contact us should you have any questions pertaining to Mr. Kidus's stay in our office as an Inter of Software developer.

Sincerely,

Yared Taddese
Managing Director

To whom concerned

I had a pleasure writing this recommendation letter to my student Kidus Sintayhu Who I taught Mathematics in grade 11 & 12. For the past two years I had known Kidus. He had been a fantastic student. From the first day of our meeting I have seen a great potential in him that continues to grow a lot.

Within the teaching learning process, I noticed that he is a very active participant in or out of class room that shows he is confident person who stands firm for what he believes in. he is very sensitive for helping others which I have often seen his helping his classmates in their studies. He had impressed me with his ability to be articulate about difficult concepts. His devotion for reading, writing, and creative expressions makes me wonder where this young man is in ten years. He has an extraordinary achievement in his academic scores which is crucial in Kidus's success. He has an exceptional generous personality. He has also a smooth relation with teachers and students. He always seeks to know more and starves for a higher success in his every aspect of life. He is talented, caring, intuitive, dedicated, and focused in his pursuits.

If Kidus has got the enabling environment I have no doubt that he will be one of the greatest scientists in the world. I am certain that Kidus Sintayhu is going to continue to do great and creative things in his future. I truly recommend his.

Best Regards

Anteneh Girma (Mathematics teacher)
