### PROFESSIONAL EXPERIENCE

#### Full Stack Developer, Mereb technologies 📄

07/2020 – 12/2022 | Addis Ababa, Ethiopia

##### • Poker Game Web Application:

- Developed the Poker Game Web Application using ReactJS for the front-end and Go for the back-end
- Implemented proper authentication and authorization protocols to ensure website security and user data protection
- utilized microservices architecture to break down the application into smaller, scalable components using Docker
- Implemented Github and Git for version control and collaboration

#### Front-End Developer, Mereb technologies 📄

##### • Mereb Technology Website:

- Developed a responsive and visually appealing website for Mereb Technologies Group using React.
- Implemented various features such as a contact form, company information, and a portfolio of past projects.

#### Full Stack Developer, Lean Pharmaceutical 📄

04/2022 – 01/2023

- Worked on a project for Lean Pharmaceutical Company using React and NodeJs
- Tested and debugged the application to ensure a high level of quality and user satisfaction.

### SIDE PROJECTS

#### Tibeb Meda 📄

- Designed and developed Tibeb Meda, an e-commerce web application using the MERN Stack, to improve the community's browsing experience and provide additional functionalities for shopping during the COVID-19 pandemic.

#### Farm Advisor App 📄

- A user-friendly web application built using ReactJS that provides real-time crop management recommendations and personalized farming advice to farmers.
- The app integrates with various data sources to gather information about weather patterns, soil conditions, and crop health.
